Special Session on: “Food Science and Technology”

Session Organiser:

Professor Wen-Xue ZHU and Professor Jian-Xue LIU

**College of Food and Bioengineering, Henan University of Science and Technology,
No. 263 Kaiyuan Road, Luoyang 471003, China**

TEL: (86) 379 6428 2342, Email: jx_liu@163.com; lyunhong@126.com

Food industry is one of pillar industries which is related to ordinary life of every person. The area of **Food Science and Technology** includes food processing, food machinery, food storage, food analysis, food detection, food safety, food biotechnology, and so on. The special session aims at providing an opportunity for researchers to share new study results and communication. This special issue is intended to focus new technology in food industry, such as innovative drying technology, nondestructive detection technology, green food processing technology and food biotechnology.

🕒 **Session Topics include but are not limited to:**

- Food drying and Storage
- Food Science and Engineering
- Food Biotechnology
- The Quality Analysis and Detection Technology in Food Materials
- Food Processing
- Food nutrition and Functional Factors
- Food Safety
- Food additives
- Food Flavor Chemistry
- Food Quality Control
- Food Machine and Equipment
- Enzymatic Engineering
- Modern Fermentation Technology
- Food Development Strategy
- Food Treating Simulation and Mathematic Modal
