5 WEEKS IN

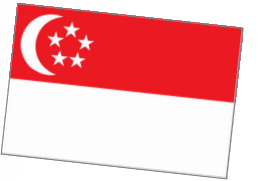

**DEAKIN**  
UNIVERSITY AUSTRALIA

2 WEEKS IN

**NUS**  
National University  
of Singapore

*My classmates and host families were very nice. I could know and experience other cultures.*

*Time flew so quickly. I really enjoyed my stay in Melbourne. I met wonderful friends from other countries and was fascinated by different cultures. Also, I ate various food and went to a lot of places. Everything was so nice!*

*My objectives were to get used to conversation in English and to experience living abroad. I can say I accomplished both through this program!*

*Talking with NUS students was very stimulating; some of them even spoke other languages in native level in addition to English! That made me realize how we - Japanese students - should put more effort into language learning!*
