

Mental Health Counseling Service

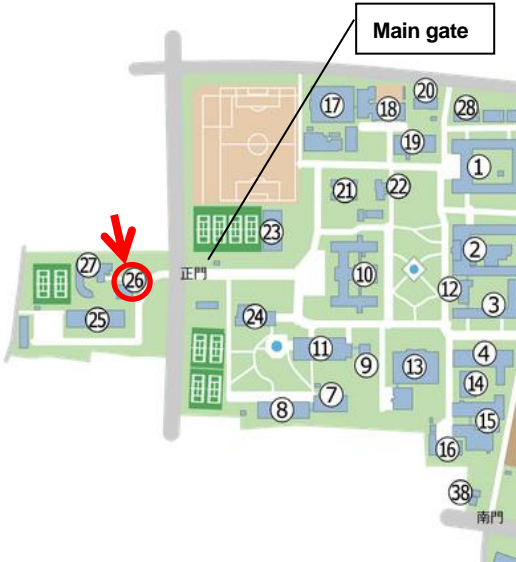

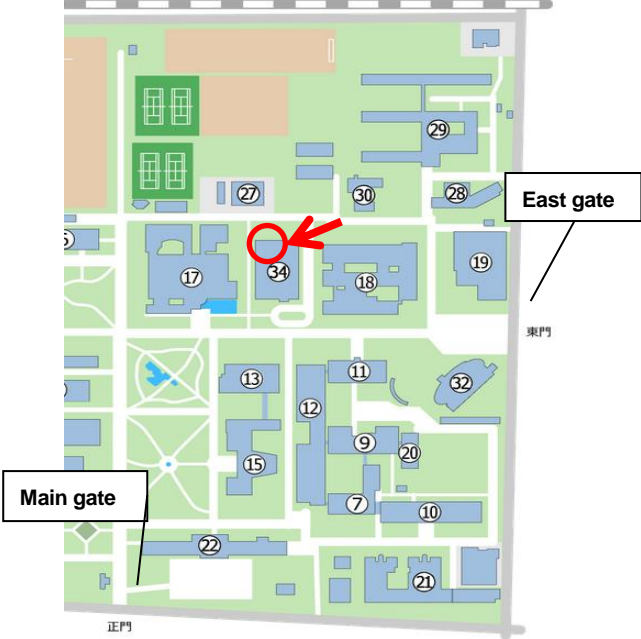

We have psychiatrists and psychologists who can help students and staff at Tokyo University of Agriculture and Technology continue their academic and personal lives with a healthy state of mind. Counseling services are free. One session is about 50 minutes. If you need some medicine, you are introduced a hospital. Please come to reception to make this appointment.

※As our counselors are all Japanese, we can't speak English well. If possible, you come to counseling with an interpreter.

Location and Hours

Health Service Center is open Monday through Friday, 9:00 a.m. to 4:30 p.m.
